Bill: HB 536 – Water Usage Notification Amendments

Sponsor: Representative Doug Owens

Floor Sponsor:

UASD Position: Tracking

This Bill addresses notification of usage of water by end users.

Discussion: As presented by the sponsor, this Bill requires further development and should be reviewed in an interim study. In its current form, it sets notification requirements for retail and secondary water suppliers to inform users about their water usage, with certain exceptions. The Bill aims to enhance transparency and awareness of water consumption. The sponsor clarified that it does not mandate collecting new data but rather standardizes best practices statewide. Representative Owens emphasized the need for continued work through the interim study process, particularly regarding the timing and implementation of the requirements. Representative Chew expressed support for the Bill's direction. No further discussion followed.
